

## PROJECT FACT SHEET

**Customer:** Sun Build

---

**Project:** Bellamack Special School

---

**Project Profile:**

### **Brief Description of This Project**

The Forrest Parade Special School building is located at 183 Forrest Parade, Bellamack, Palmerston. Nilsen undertook supply and installation of electrical services for the new special school including fire services, CCTV & Security system. The programme from the outset was a challenge which Nilsen embraced with the project team headed by Sun Build. Some of the project innovations consisted of LED lighting, PIR 360 sensors and student/teacher interactive smart touch screens.

### **Outline of Nilsen Scope of Works**

- Nilsen NT was engaged to Supply, install, test commission the following services.
- Distribution boards, power and lighting services including in ground lighting.
- Communication, PA and MATV system.
- Security access & CCTV system.
- Electronic Fire Detection system.

### **Significance**

Forrest Parade special school is located in a newly developed suburb in Palmerston and is the first school in its area. The school itself meets the needs of many special needs children. Additional items were installed within the school to enhance the learning experience of these children. Items include:

- Plunge pool
- In ground trampoline
- Hearing augmentation throughout
- Spacious learning areas
- Smart TV/learning boards
