

PROJECT FACT SHEET

Customer: Brookfield Multiplex for the City of Cockburn

Project: Cockburn Recreation Centre

Project Profile: Brookfield Multiplex have awarded Nilsen the electrical services contract for the Cockburn Recreation Centre. The new home of the Fremantle Dockers will not only include the Fremantle Dockers administration and training facility but will also provide sport and recreation facilities to the public including a training oval, change rooms, gym and pool complex including water slides and meeting and conference facilities.

Nilsen will supply and install the electrical, IT and communication systems for the facility. The scope includes HV works, LV switchboards, UPS systems inclusive of sitewide power distribution and reticulation and lightning protection. Nilsen will also supply, install and commission the lighting and feature lighting packages with an intelligent control system programmed through computer monitoring.

Commenced in July 2015, Nilsen expect to have up to 20 people onsite at its peak. The project is scheduled for completion in December 2016.
