

## PROJECT FACT SHEET

**Customer:** BAULDERSTONE

**Project:** Defence Logistics Transformation Project: Lavarack Barracks

**Project Profile:**

Nilsen have commenced works the **Defence Logistics Transformation Program (DLTP) at Lavarack Barracks** in Townsville.

This project is part of an initiative to modernise and enhance Defence's warehousing and distribution functions.

This \$150M project managed by Baulderstone, is part of a 5-year nationwide project delivered across six work packages around Australia. Two other DLTP contracts have also been awarded to Nilsen – at Moorebank, New South Wales and Wallangarra, Queensland.

The scope of the Lavarack Barrack's DLTP Project is a main warehouse and distribution centre building, general vehicle workshop, loans and repair pools storage including canopy, hazardous goods store and bitumen-paved roads around the site.

Currently on site in 2014, Nilsen's scope includes:

- **Electrical Package**
- **Communications Package**
- **LV Light and Power**
- **High Voltage**
- **3 x Kiosk-type Substations**

With electrical packages awarded to Nilsen at three DLTP sites, our experience in the Defence sector is set to advance further than ever before.
