## NILSEN

## **PROJECT FACT SHEET**

Customer:	City of Dandenong
Contractor:	Civilscape / Hayes Heffer
Project:	Revitalisation of City St / Dandenong Plaza
Completion:	November 2012

## **Project Profile:** Revitalisation of City St Dandenong creating a new open air public area designed for multiple uses.

Nilsen Scope of Works: Nilsen sourced supplies and installed public lighting, remote controlled LED colour shifting feature lighting, erected a 28 meter light tower with Mirrortec reflector system and 5Kw flood lights, under deck feature lighting, handrail feature lighting and power throughout the project. The lighting was controlled from a remote location out of the City of Dandenong's Arts control centre using Dali lighting controls via 3G communications.

ProjectTight budget restraints, a timeframe of materials taking into account overseas sources<br/>and creating systems for the installation of novel, custom built equipment all made for<br/>very demanding project.
